S/N: 10082880AHP

PRINT METER: Approx. 77,000

LAST DATE OF SERVICE: June 27, 2023

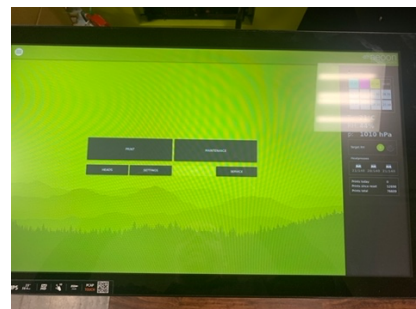

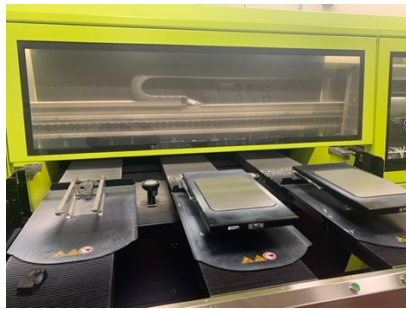

TECHNICIAN COMMENTS: Machine is in very good condition, is fully operational (subject to re-install notes below) and has been properly flushed in preparation for purchase and relocation.

RE-INSTALL NOTES: The cable on the left station requires replacement at installation. Existing cable is damaged; machine includes the replacement.

The white reservoir tanks have a small amount of sediment following the flush; technician recommends an additional flush at re-installation.

Technician recommends routine preventative maintenance performed at time of installation, i.e. replacement of ink and water filters and wiper blades.

TECHNICIAN Contact information for the technician available upon request. Technician is available to assist buyer with de-installation and re-installation at buyer's cost.

The preceding information has been gathered from third party sources and is believed to be accurate; however, in no way does this information constitute a guarantee of condition or warranty of any kind. Equipment is being sold "as-is, where-is".
